Sample grant digest on a logistics profile (public scheme pages).

Summary

Grant call watch — sample monthly digest

Subject → [WATCH] OCT 2026 — GRANT CALLS: QUIET MONTH, CUTOVER NOTED

Profile: logistics SME, 40 staff (sample profile) Watching: open grant calls matching your entity + sector, re-swept monthly REF W-SAMPLE-GRANT • Verdict first, every line cited

BOTTOM LINE UP FRONT

EDG, PSG and MRA closed to new applications on 29 Sep 2026 as the EDGE scheme beds in. Against that cutover the desk re-swept the enterprise and sector calls below for a 40-staff logistics profile — nothing open fits today. Quiet months still send the cited list, so you can see the check ran. The wire exists for the month a call opens, changes, or closes.

Sweep list (October 2026 check)

Call	Fit for this profile	Source
EDGE (enterprise capability)	Watching — open, criteria vs your spend under review	EnterpriseSG, read Oct 2026
EDG / PSG / MRA (legacy)	Closed 29 Sep 2026 — no new applications	EnterpriseSG cutover notice
Sector logistics calls	None open matching 40-staff profile	Desk sweep, Oct 2026

SOURCE → EnterpriseSG scheme pages + sector call boards • CONFIDENCE → high

What a live alert reads like (ILLUSTRATIVE example)

• New call: sector logistics digitalisation call opened — applications to 30 Nov 2026. Fit line: 40 staff qualifies; spend must be new (deposits kill eligibility). Angle: apply before the year-end queue. SOURCE → sector call board • CONFIDENCE → high

Method, honestly stated

One agent sweep per month per watched profile: enterprise schemes plus your sector's call boards, matched against headcount, sector, and what you would spend on. Only new or changed calls alert — with the fit line, not the brochure. First check seeds the baseline silently. This wire spots windows; your grant consultant files them. Cancel anytime. Research, not advice.
