Request

Sample IPOS digest on mark SINGPOST (public mark).

Summary

IPOS filing watch — sample monthly digest

Subject → [WATCH] SEP 2026 — SINGPOST MARK: BASELINE + WIRE ARMED

Mark: SINGPOST — IPOS filing watch (sample on a public mark) Watching: new IPOS filings colliding with the mark, hand-checked monthly REF W-SAMPLE-IPOS • Verdict first, every line cited

BOTTOM LINE UP FRONT

The baseline below is REAL register data (read September 2026): three live SINGPOST word marks to 2036. A live watch re-runs your mark through IPOS eSearch monthly and alerts only on genuinely new, colliding filings.

Baseline (REAL register rows)

Application	Mark	Status	Owner	Expiry
T9605660J	SINGPOST (word)	Registered	Singapore Post Limited	2036
T9605659G	SINGPOST (word)	Registered	Singapore Post Limited	2036
T9605196Z	SINGPOST (word)	Registered	Singapore Post Limited	2036

Plus a live SPEEDPOST pair and an EMS SPEEDPOST mark on the same register. SOURCE → IPOS eSearch manual read, Sep 2026 · CONFIDENCE → high

What a live alert reads like (ILLUSTRATIVE example)

• New IPOS filing: SINGPOST XPRESS (class 39) — lodged recently, under examination — token SINGPOST identical to your baseline. Confirm no affiliation, then decide with counsel: oppose, monitor, or ignore.

Method, honestly stated

No bulk IPOS feed exists, so the desk hand-checks your mark monthly and files each colliding new filing with its number, classes, and status. Opposition windows run 2 months from publication — the wire exists so you never miss one. This wire spots filings; counsel decides opposition and registrability. Cancel anytime. Research, not advice.
