Sample brief — fictional figures, real format

Summary

Sample quick check — Sample Trading Pte. Ltd. (SAMPLE DEMO)

Format demo with fictional figures only — not a live company check, 11 Sep 2026.

1. Headline result (sample — nothing here is a live fact)

Sample Trading Pte. Ltd. is a fictional name for this format demo. No live status is claimed, and no real UEN (company registration number) is given — the UEN below is a placeholder.

Item	Sample value
Company name	Sample Trading Pte. Ltd. (sample)
UEN	SAMPLE-PLACEHOLDER — not checked (sample)
Status	NOT CHECKED in this demo — placeholder only (sample)
Paid-up capital	S\$100,000 (sample)
Incorporation year	2019 (sample)
Staff count	12 (sample)
News sweep	0 adverse hits (sample)

So what: this page shows the shape of a real answer. In a paid check each cell above would carry a verified value with its own source line.

2. Status method — free BizFile search

How a real status check runs, using ACRA's (Accounting and Corporate Regulatory Authority) free public search:

1. Go to the BizFile portal search page.
2. Type the full company name or UEN (company registration number) into the search box — partial names also match.
3. Read the results list: it shows name, UEN, status (e.g. Live, Struck Off), and entity type at no charge and with no login.
4. Open the record for core details shown free: registered address, incorporation date, business type, and status.

Basic searches are free and need no account. The results list shows name, UEN, status, and entity type at once.

3. News-sweep method

How a real news sweep runs alongside the register check:

1. Search the exact company name in quote marks, plus the UEN on its own.
2. Repeat with each director's full name plus the company name.
3. Filter to the last 24 months, then scan all years for court, fraud, or winding-up mentions.
4. Record each hit as outlet + headline + date + link; record clean sweeps as "0 adverse hits" with the date run.

In this demo the sweep result is 0 adverse hits (sample) — an illustration, not a finding about any real firm.

4. What a real S\$49 check returns

The S\$49 paid check builds on the two free methods above and adds:

Included	Detail
Verified status line	Live / Struck Off etc., with UEN and entity type, each with a source
Core profile	Registered address, incorporation date, officers on record
News sweep	Dated hit list or confirmed clean sweep
Sources file	The attached SOURCES.csv with one row per claim

Paid ACRA documents (the full certified business profile and company extracts) sit behind the BizFile payment wall and are not included in this sample. A full business profile can be bought on ACRA's iShop for S\$5.50.

5. Honest gaps

- Status, UEN, capital, staff, and sweep figures above are all fictional demo values.
- No paid ACRA document was bought for this sample, so officer names and address are absent by design.
- A live check would confirm status on BizFile on the day of delivery before payment decisions.
